

SKILLED NURSING CARE

- ✦ Assessment of patient and family to determine home care needs.
- ✦ Complete physical assessment and history of current and previous illness (es).
- ✦ Plan of care and makes necessary revisions as patient status and needs change.
- ✦ Develops a care plan which establishes goals, based on nursing diagnosis and incorporates therapeutic, preventive, and rehabilitative nursing actions.
- ✦ Includes the patient and the family in the planning process.
- ✦ Initiates appropriate preventive and rehabilitative nursing procedures.
- ✦ Administers medications and treatments as prescribed by the physician.
- ✦ Counsels the patient and family in meeting nursing and related needs.
- ✦ Provides health care instructions to the patient as appropriate per assessment and plan.
